PROJECTS

Video streaming Website

August, 2023

YoutubeV3

- Technologies Used: HTML, CSS, Javascript, React, Material UI, Rapid API.
- It's an ad-free open video streaming platform like YouTube. You can search anything over here and you will get 50 latest videos/options at a time that are fetching from the rapid API. You can play these videos as well as control them, besides that you can check video details, channel details.

Music player

Dec, 2022

Music-Player

- Technologies Used: HTML, CSS, Javascript, Bootstrap
- It is a clean music player app, which contains some pre-uploaded musics, and also responsive on different kind of devices.

ACHIEVEMENTS

- I have participated in CODE-KAZE coding competition organized by code-Studio, coding Ninja, and I acquired 2nd rank in my college.
- I have also participated in the Code Of Duty coding competition organized by geeksforgeeks, I secured the 7th rank.
